## SUMMARY.

**FARMER'S.** SYDNEY. THE HOUSE OF COMMONS.

1917-18. SEVEN YEARS.

THE RIGHTS OF THE RENT AND TENURE.

THE CHILDREN'S MORNING AT FARMER'S

This week we have been reminded that summer days are upon us of the imperative need for the young, the sturdy, the hardy, the robust, the strong, the courageous, the energetic, the enterprising, the resourceful, the determined, the resolute, the determined to achieve victory, and are determined to do so.

The American Secretary for War says the Allies are driving a wedge in Flanders which will eventually split the German forces.

A typhoon of fire is, he adds, causing the Germans to tremble, and has compelled him to amend his tactics.

A United States congressman, after spending six weeks on the Western front, declared that the battle had turned.

Mr. Davis states that the day is now clearly ours, and that victory or defeat, we must win by which, sooner or later, we must go through.

Hurtle artillery vigorous shelled various localities westward of Ypres and posteriorly east of Poelcapelle.

THEY'VE SUCCEEDED. The British artillery command a successful counter-attack.

British concentrated fire was directed at a few targets of a number of targets. A few prisoners were brought in.

There was great aerial activity on Thursday, bombs were dropped on enemy billets.

The enemy's machines were very aggressive in the forenoon, making several flights over the British lines.

Out of the four, three fell in the British territory, and four others were driven down. Three of ours are missing.

The London Regiment carried out a successful raid in the neighbourhood of Gaville.

French planes repulsed an attack against Villersexel, north of the Aisne.

Artillery actions have occurred at Maisons-la-Chapelle and in the Chateau Wood region.

Information has reached New York that a major occurred on a German warship at Oerard.

The Russian battleship *Saratov* was sunk during the naval battle in the Gulf of Riga.

The enemy has penetrated the Gulf of Riga, and has occupied the whole of Oesel Island.

Russian patrols report that 55 enemy ships are in the neighbourhood of Oesel and Dago Islands.

German official message states: Our captures on Oesel Island include 10,000 prisoners.

"We silenced the batteries on Moon Island and the northern coast," it added.

A Berlin official despatch announces the capture of Moon Island by the Germans.

A German warship is reported to have sunk in the Sound. A number of sailors' bodies have been washed ashore.

Reports also indicate that a critical situation exists in Turkey. Several outbreaks have been suppressed.

The populace is suffering from famine, and is on the point of rebellion against the Turks and the Germans.

General contempt is shown in New York for Germany's reported extension of the U-boats zone.

Marietta underwriters maintain low rates, and some share have advanced.

The United States will be represented at the Conference of the Allies in Paris.

Up to 10 o'clock last night £6000 was in hand from street collections in the city and the District Relief Fund.

It is expected that another £1000 will be received when all the boxes have been counted.

The direction of the fund stated yesterday that the amount of applicants for relief was greatly increasing.

Many of the cases were, he remarked, pitiful in the extreme.

At the meat inquiry yesterday a master butcher said he was dissatisfied with the "pool" arrangement during the strike.

He said the price and quality given him could not conduct his business in his own way.

The workmen engaged the Otrio tunnel, New Zealand, have struck, owing to a dispute with the owners.

Initial reinforcements are to be raised on the railway units at the front.

The question of the establishment of an armistice is being considered by a sub-committee of the Cabinet.

Mr. Reilly arrived in Melbourne yesterday to confer with Victorian Ministers on measures arising out of the strike.

The Minister for Labour also discussed with Mr. Hartshorn questions affecting industrial legislation.

A man appointed by the Chief Commissioner is visiting the railway centres to hear the case of dismissed employees.

In many cases men were ordered to be reinstated, though in some instances the men were confined.

The collieries at the coalfields in the Newcastle and Maitland districts have been satisfactory during the week.

In some instances collieries were thrown into a shortage of empty wagons.

Mr. Hartshorn has received a reassuring report from the manager of the Yarrawa voluntary workers in the Maitland coalfield.

The proprietary mine at Broken Hill continues to work steadily.

The British, and probably Broken Hill, will resume on Monday, and other mines will start as soon as coal supplies are assured.

With one or two exceptions, miners have adjusted themselves in the western collieries.

The steamship companies in Brisbane are agreed to increase fares under way now that the strike is over.

The question of the establishment of an armistice is being considered by a sub-committee of the Cabinet.

DAY.

TUESDAY.

## WESTERN FRONT.

## ACTIVITY OF AIR SQUADRONS.

## FRENCH TOWN BOMBED.

## SWIFT REPRISALS.

LONDON, Oct. 19.

Field-Marshal Sir Douglas Haig, in his report issued at midnight, states: Hostile artillery have shelled vigorously various localities eastward of Ypres and positions south-eastward of Puisieule. The activity of our artillery continues. Successful counter battery work has been carried out, concentrated fire being directed with good effect on a number of targets. A few prisoners have been brought in. There has been no further infantry action.

There was great aerial activity yesterday, when 95 bombs were dropped on the enemy's billets and bungalows. The enemy's machines were very aggressive in the forest, making several flights over our lines. Of eleven brought down three fell in our territory. Four others were driven down.

Sir Douglas Haig in his noon report of Thursday stated: The Londoners carried out a successful raid last night in the neighbourhood of Gavrelle. Several of the enemy were killed or taken prisoners. Casualties were light.

The British artillery is active south of the Ypres-Cambrai Canal and in the neighbourhood of Zonnebeke and Broedseweke.

A French communiqué states: North of the Aisne our troops repelled an attack against Vauvillers Plateau. Artillery actions have occurred at Maisons-de-Chamagne, north of Soissons, and on the right bank of the Marne, in the Bois-de-Chamagne region.

**FRENCH AIRMEN ACTIVE.** A French communiqué issued on Thursday afternoon stated:—Enemy aeroplanes last evening bombed Nancy. There were some civilian victims.

Six German aeroplanes were destroyed yesterday, and five fell out of control in their own lines.

French air squadrons freely bombed enemy railway stations, factories, numerous munition depots, and bivouacs.

A German official message on Thursday afternoon stated: In reprisal for the attack on Frankfort we again dropped bombs on Nancy.

**BRITISH ARMIES CONFIDENT.** The Press Bureau announces that Sir Douglas Haig has replied to Mr. Lloyd George's telegram as follows:—

"The British armies in France are proud to have won the congratulations of the War Cabinet, and the generous appreciation conveyed in your message.

"All ranks are determined to achieve victory, and are confident of doing so."

## THE ALLIED WEDGE.

## WASHINGTON, Oct. 18.

Mr. N. D. Baker (Secretary for War) in a communiqué, points out that the Allies are driving a wedge in Flanders which will eventually split the German line, permitting a flanking movement and eliminating costly frontal attacks. Typhoon fire is causing the German real concern, and has compelled him to amend his tactical dispositions in the effort to meet the shock. The scope of operations around Ypres has been so extended that it can no longer be considered a salient, but a progressively extending wedge.

The French co-operation is most important, affording the Allies necessary elbow room. The low casualties of the assaulting columns attest the precision of the Allies' barrage.

The Paris correspondent of the United Press Association says that Congresswoman Medill McCormick, after spending six weeks on the various battle fronts, declares that "the war is turned." There will be terrible battles, but despite Russian events the Austrians and Germans have been consistently repelled and are no longer able to attack.

## THE FIVE GREAT BATTLES

## THEIR SIGNIFICANCE.

Mr. C. E. W. Bean, official correspondent with the A.I.F., cabling on Wednesday night, said:—The significance of the five great battles which have been just fought before Ypres, Cambrai, Arras, Pozières, and the Somme, have taken a really great part, may be lost sight of by attaching too much weight to the fact that the last two were not completely successful. This makes not the slightest difference to the all-important fact, which is that we have won the battle, and given sufficient preparation and decent weather, we can beat the Germans every time we decide to attack him.

The following broad view is worth keeping in mind by Australians in order to understand the present state of battle. The Germans cannot be beaten except by the Germans. He is bound to stand up, because any retreat on a considerable scale, would be attempted at the Somme. He is bound to stand up, because any retreat on a considerable scale, would be attempted at the Somme.

This was no trouble at all. German raids have been attempted, and fighting has occurred in some sectors. That is why the German correspondents are warning the Germans that they are fighting for their existence on this battlefield. Personally, one has never seen so hopeful before during the war, because the way is now clearly seen which, sooner or later, we must win through.

**THE ANZACS.** LULL AFTER BATTLES.

It is officially announced that the United States will be represented at the forthcoming Conference of the Allies in Paris.

**MUTINY AT OSTEND.**

Information has reached New York that a mutiny occurred on a German warship at Ostend.

**THE HON. DENIS BUXTON.**

CAPETOWN, Oct. 18. Lieutenant Hon. Denis Buxton of the Colonial Office, Captain of the Coldstream Guards, was recently asked to hold their trenches securely. This was no trouble at all. German raids have been attempted, and fighting has occurred in some sectors. The Germans had to stand up, because any retreat on a considerable scale, would be attempted at the Somme.

Another fine day prevailed on Tuesday. Operations were confined to mutual artillery shelling. The Australian and New Zealand landings were easily taken to hold their trenches securely. This was no trouble at all. German raids have been attempted, and fighting has occurred in some sectors. The Germans had to stand up, because any retreat on a considerable scale, would be attempted at the Somme.

In the House of Commons to-day Mr. Bonar Law stated that the Premier would move a resolution on the 29th last, indicating the gratitude of the House for the heroism of the Empire's sons.

Sir George Cave (Home Secretary) stated in the House of Commons that there was no evidence on which Lausio de Lombras could be convicted, but he had been interned, because he was gravely suspected of having been engaged in activities which might be dangerous to the public safety.

The New Zealanders say the Germans are suffering from extreme nervousness. The New Zealanders found a way to get the wounded

## NAVAL BATTLE.

## IN GULF OF RIGA.

## LARGE GERMAN FLEET.

## RUSSIAN BATTLESHIP SUNK.

## ANOTHER ISLAND TAKEN.

LONDON, Oct. 19.

A Russian official message on Thursday afternoon stated:—During the naval battle in the Gulf of Riga the Russian battleship Slava, 13,516 tons, was sunk. Yet the New Zealanders instantly shot any German not tending the wounded who exposed himself, and the Germans endeavoured to catch the New Zealanders in the same manner.

At earlier points of the Aasne line, when the Germans shot down stretcher parties, our boys indicated instant punishment. Canterbury, Otago, and Nelson troops successfully crossed the Ravek, which was the easiest thing imaginable to get drowned in the sea.

It was only possible to get across in two places, one being the Ravek strait. Many fell, but others actually crawled under the wire which held the strong points under the Bellevue Spur.

A popular Otaki officer was killed after throwing a bomb in one of the New Zealanders who had given such places short shrift.

Other New Zealanders co-operated with the Imperial troops on the left. The advance was dependent upon the rapidity of the progress across the Ravek. The officers knew now that the bravest as well as the boldest New Zealanders were advancing. They had to be sternly commanded to lie down when gouts of bullets came in their way. When a shell killed the senior officer, a signalling sergeant from Lyttelton struggled for an hour and a half through mud under constant fire until he found a lieutenant to take over the command.

Sir Douglas Haig in his noon report of Thursday stated: The Londoners had given such places short shrift.

Other New Zealanders co-operated with the Imperial troops on the left. The advance was dependent upon the rapidity of the progress across the Ravek. The officers knew now that the bravest as well as the boldest New Zealanders were advancing. They had to be sternly commanded to lie down when gouts of bullets came in their way. When a shell killed the senior officer, a signalling sergeant from Lyttelton struggled for an hour and a half through mud under constant fire until he found a lieutenant to take over the command.

There were several cases of non-commissioned officers leading platoons at the end of the battle. The fact that the most valiant front line was the rear line, saved them from trench foot. Hot meals were also a factor in keeping the men fit.

The New Zealand force to-day is most cheerful, knowing that the latest sacrifices have not been made in vain, and will be attended by most important results.

## RAID BY ARABS.

An official message from Egypt says:

The Arabs early in October successfully raided railway communications north of Medina.

## CAPTURE OF RAMADIE.

A German official message issued on Thursday evening stated:—Our captures up to the present on Oesel Island include 10,000 prisoners. Only a few hundred escaped to Moon Island with 50 guns.

Portions of our naval forces advanced through the minefields as far as the southern exit of Moon Sound, from whence they had been concentrated as far back as 1906. The two enemy battleships as far as the village of Riga simultaneously, a great number of aircraft dropped many bombs on our ships and harbours.

The enemy landed small detachments on Dagob Island, but our fire forced them to return to their ships. Subsequently an enemy cruiser and dreadnought bombarded the landing place.

Our patrols report that 55 enemy ships are in the neighbourhood of Oesel and Dagob Islands.

**GERMAN STATEMENT.**

A German official message issued on Thursday evening stated:—Our captures up to the present on Oesel Island include 10,000 prisoners. Only a few hundred escaped to Moon Island with 50 guns.

Portions of our naval forces advanced through the minefields as far as the southern exit of Great Moon Sound, from whence they had been concentrated as far back as 1906. The two enemy battleships as far as the village of Riga simultaneously, a great number of aircraft dropped many bombs on our ships and harbours.

The enemy landed small detachments on Dagob Island, but our fire forced them to return to their ships. Subsequently an enemy cruiser and dreadnought bombarded the landing place.

Our patrols report that 55 enemy ships are in the neighbourhood of Oesel and Dagob Islands.

**WAR NOTES.**

**THE RIGA GULF NAVAL BATTLE.**

The naval battle in the northern exit of the Gulf of Riga. The Russians have taken control of the Irbz Channel and the enemy battleship advanced through the minefields as far as the southern exit of Moon Sound, from whence they had been concentrated as far back as 1906. The two enemy battleships as far as the village of Riga simultaneously, a great number of aircraft dropped many bombs on our ships and harbours.

The enemy landed small detachments on Dagob Island, but our fire forced them to return to their ships. Subsequently an enemy cruiser and dreadnought bombarded the landing place.

Our patrols report that 55 enemy ships are in the neighbourhood of Oesel and Dagob Islands.

**GERMAN STATEMENT.**

The enemy landed small detachments on Dagob Island, but our fire forced them to return to their ships. Subsequently an enemy cruiser and dreadnought bombarded the landing place.

Our patrols report that 55 enemy ships are in the neighbourhood of Oesel and Dagob Islands.

**WAR DESPATCHES.**

**SALONICA AND PALESTINE.**

Mr. J. I. Macpherson (Under Secretary for War), speaking in the House of Commons, said that a Salonic despatch had been received and would be published as soon as possible.

A Palestine despatch had also been received, but would not be published, as it might give information to the enemy.

**BRITISH LABOUR PARTY.**

LONDON, Oct. 18.

The National Executive of the Labour Party has completed the framing of a new constitution somewhat following Australian methods.

It is reported from Washington that a United States torpedo boat, which was unharmed in European waters, has reached port.

**TURKEY.**

**CRITICAL SITUATION.**

Reports from Athens state that a critical situation exists in Turkey. The Liberals are co-operating with the old Turks, and openly gaining public support, rendering Enver Pasha's position difficult.

Several mob outbreaks have been suppressed. The populace is suffering from famine, and is on the verge of a rebellion against the young Turks and Germans.

**LOCKING UP RUSSIAN WARSHIPS.**

Although the official messages are not

absolutely clear as to the course of the action, it

would seem as if the complete capture of Oesel Island and the coast of Courland, the

main Russian batteries on the Swabian Peninsula, and the enemy's control of the Irbz Channel, which is evidently

the southern entrance of the Gulf of Riga, be-

tween the south-western extremity of Oesel

Island and the coast of Courland, the

main Russian batteries on the Swabian Peninsula, and the enemy's control of the Irbz Channel, which is evidently
